

GALDERMA

EST. 1981

Wholesale Acquisition Cost of Prescription Drugs for Colorado Prescribers

SOOLANTRA® (ivermectin) Cream, 1%

In accordance with the Colorado Wholesale Acquisition Cost Disclosure Law (Colorado Revised Statutes Section 12-42.5-308), Galderma is hereby providing authorized Colorado prescribers of prescription drugs with wholesale acquisition cost (WAC) information for the above Galderma-marketed product.

Galderma Product	NDC	Dosage Form	Strength	Unit Size	Wholesale Acquisition Cost*
SOOLANTRA®	00299-3823-45	Tube	1%	1	\$730.15

Whole Acquisition Cost (WAC) reflects the sale price to wholesalers before any discount, rebate, or other price reduction is applied. The product cost to patients is often different than the WAC due to insurance coverage. Patients can determine their actual cost for the above product by contacting their insurance company and/or visiting their pharmacy.

In addition to WAC information, Colorado law also requires manufacturers to provide the names of at least three generic prescription drugs from the same “therapeutic class”. If three are not available, list as many as are available for prescription use. The following are generic prescription drug options in the same “therapeutic class” as the Galderma product listed above:

- Ivermectin Cream 1%

*Pricing as of February 1, 2024. Pricing information does not imply safety or efficacy of the product, and no comparisons should be made.

**Inclusion on this list does not imply that the products are interchangeable or have the same efficacy or safety. Please refer to each product's FDA-approved label and indication for further information
